01

ABOUT SWFU

Founded in 1938, Southwest Forestry University is a public comprehensive university and one of the key universities in Yunnan Province. Solely established in the western region of China with specialty in forestry, SWFU have now become a comprehensive university providing multi-disciplinary programs in forest conservation and sustainable utilization, landscape construction, forest engineering, bio-technology, eco-tourism, agricultural and forest economy, business administration, big data and artificial intelligence, computer science and technology, material sciences, transportation and machinery, as well as language programs such as English, French, Thai and Vietnamese.

01

ABOUT SWFU

SWFU has a total of 85 undergraduate majors, 67 master's programs, 3 PhD programs, and 3 post-doctoral mobile stations in the fields of agriculture, science, engineering, literature, law, management, and education and arts. The university has now carried out various forms of international exchanges and cooperation with nearly 100 colleges and universities in more than 20 countries and regions in the world.

01

ABOUT SWFU

SWFU has a total teaching staff of 1283, including 153 professors, 334 associate professors. Some of these professors are famous national experts and specialists. The university also employs 10 top level international experts.

SWFU has some national-level research laboratories and centers in the field of forest biological resources, alpine forest conservation and utilization laboratory, national plateau research center, Yunnan biodiversity research institute and some research bases of the national bureau of forest and grassland.

02

Facilities

Herbarium

SWFU has built a comprehensive modern herbarium covering an area of 6,000 square meters with rich collections of specimens and samples in botany, zoology, wood sciences and ecosystems.

The herbarium has 6 floors. The first floor is an exhibition hall that integrates physical specimens, pictures which reflects biodiversity. The second and third floors are the plant specimen room, the fourth floor is the wood specimen room, the fifth floor is the insect and plant pathology specimen room, and the sixth floor is the wild animal specimen room.

02

Facilities

Libraries

There are two libraries, with area of 14,800 square meters, 11 different reading rooms and 1616 seats. At present, there are 1.26 million paper documents, more than 1,700 kinds of newspapers and periodicals, 365,000 e-books, and more than 30 Chinese and foreign literature databases.

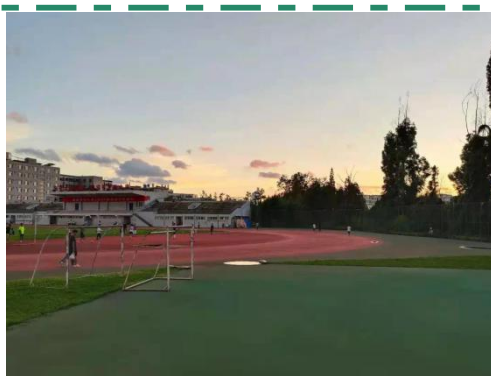

02

Facilities

Playground

The indoor gymnasiums are equipped with advanced in facilities. They consist of three main halls: swimming pool, competition hall and training hall. The competition hall can accommodate 2,900 people. The training hall features badminton and table tennis courts and other others. In addition, SWFU also has standard outdoor ground track field, football field, equipment gym, and seventeen outdoor basketball and volleyball courts.

02 Facilities

High-tech Learning Equipment

SWFU has high-tech learning equipment including advanced campus network, high-quality multimedia classroom, language lab, computer learning room, etc., which can provide students with the most advanced hard conditions for learning.

Canteen

There are three canteens which could cater for the needs of international students. The canteens have a wide selection of foods to meet the needs of students.

03 *Faculties & Programs*

International College

Program	Code

INTERNATIONAL COLLEGE

The International College is responsible for the international students' education at SWFU. All the staff at International College has overseas qualifications or more than one year of work experience overseas.

05 *DISCOVERing KUNMING*

Southwest Forestry University is located in eastern part of Kunming City in China' s Yunnan province with convenient transportation and eco-friendly environment composing of World Horticulture Expo Park, Golden Temple Forest park and other extensive amenities which will make the learning and living experience unforgettable and fruitful.

- Location: Kunming, China
- Area: 3 Campuses, 180 hectares
- Student size: 29594

05

DISCOVERing KUNMING

Kunming has one of the mildest climates in China, characterized by mild, cool and dry winters and long, warm and humid summers. With its perpetual spring-like weather which provides the ideal climate for plants and flowers, Kunming is known as the “Spring City”. The city is covered with blossoms and lush vegetation all-year round.

On June 14, 2016, the "China Livable City Research Report “released by Chinese Academy of Sciences, indicating that the Kunming Livable Index ranked second among the 40 cities in China.

Kunming is the political, economic, communication and cultural centre of the Yunnan Province as well as the seat of the provincial government. The headquarters of many of Yunnan’s large businesses are in Kunming. Its economic importance derives from its geographical position.
